

# FX36 Defender Mulcher

The FX36 Defender Forestry Mulcher is the latest in the Defender line of Mulchers. Engineered to work efficiently with mid-sized excavators from 16 to 30 thousand pounds. It is the **perfect** tool for **property** maintenance, to clear a right-of-way, open up a view, or to create a defensible space in areas where wildfires are a threat.

Like all BrushHound Attachments, it is durable, dependable and easy to maintain. Cutting capacity up to 8" continuous. BrushHound is continuing to innovate the attachment market and here is why.

## Performance

The FX36 Defender Forestry Mulcher is a fixed-tooth cutter that weighs 1300 pounds. It is designed to operate on the standard thumb circuit on all 9-14 ton excavators. Its Quadco cutter knives have four positions and will make short work of trees up to 8 inches in diameter as well as vines, grasses and other material.

### FX36 SPECIFICATIONS

Cutting Width	36"
Overall Width	67"
Weight	1300 lbs.
Cutter Tool Station	24
Teeth	24
Hydraulic Flow Req	20 gpm
Hydraulic Pressure Req	3000 psi
Cutter RPM	1800

## Key Features

- **Quadco Cutter Knives.** Easy to change. Four positions, one-piece steel alloy
- **True Shaft Technology.** An electronically balanced cutter drum with serviceable hubs to ensure straight shafts that run smooth for years of reliable, vibration-free operation
