

30EX Brush Mower

Key Features

Tough, lightweight and versatile, the 30EX Brush Mower safely cuts and mulches small trees, grass and brush. It easily attaches to compact excavators and backhoes to quickly convert them into long-reach boom mowers to clear high vines and trees to the ground. Its size and design maximizes cutting and mulching muscle while saving energy.

Performance

The 760-pound shredder is engineered to last. It utilizes the same powerful cutter drum as its bigger cousin, the 40EX HammerHead, for durability and toughness. Its 30-inch width and 18 2.25-pound knives combined with 9 2-pound center knives provide maximum cutting capability for even the toughest jobs.

30EX SPECIFICATIONS

Cutting Width	30"
Overall Width	54"
Weight	800 lbs.
# of Knives	18-2.25 lb./9-2 lbs. Triple knife configuration
Brush Capacity	4"
Hydraulic Flow Req	12 gpm

- **Bolt-on Excavator Mount.** Every model includes excavator-specific mount
- **Adaptability.** Mounts to most mini and compact excavators or backhoes 9k to 12k lbs.
- **Composite Dampener Washer.** Isolates operational vibration and increases drive component lifespan
- **Wire Guards.** Anti-wrap design protects bearings and seals from debris
- **Triple Flail Knives.** Reversible triple knife 2.25-pound side slicer knives plus a 2-pound straight knife provide 7 pounds of knives in each station adding power and extra cutting surface
- **Bolt-on Reversible Flails.** Extends the life of flails by utilizing second edge
- **Bolt-on Chain Guards.** Easily replaceable if damaged
- **Direct Drive Design.** Maximizes power transfer to cutter drum
- **SAE Compliant.** Exceeds all SAE J1001 standards for flail mowers
- **Standard Thumb Saddle.** Serrated edge works with excavator thumb to remove debris
- **Single-Piece Frame.** Modern engineering increases strength by 25%
