

30EX HD Brush Mower

The 30EX HD Brush Mower is a compact heavy duty brush mower that cuts and mulches small trees, heavy grass and brush. This affordable cutter is like having your own crew of workers with chainsaws. It is the highest performance brush mower available for 5-ton sized excavators. Cutting capacity .5-4".

Performance

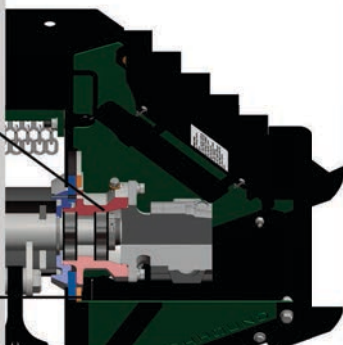

Built to contractor quality standards, the 30EX HD weighs 820 pounds and offers all the toughness and durability for which BrushHound products are known. Its triple-flail design and high-performance drum offers maximum power and cutting efficiency using our triple knife configuration.

30EX HD SPECIFICATIONS

Cutting Width	30"
Overall Width	59"
Weight	850 lbs.
# of Knives	18-2.25 lb. / 9-2 lbs.
Brush Capacity	4"
Hydraulic Flow Req	15 gpm

EX DRIVE SYSTEM

- Composite isolation disk
- Isolates vibrations, decreases impact forces on drum-motor interface, prolonging systems life.
- Wire cone

Key Features

- **High-Performance Cutter Drum.** More power for tougher tasks
- **Extra-Strength Thumb Saddle.** Serrated edge works with excavator thumb to grab and remove debris or obstacles
- **Bolt-on Excavator Mount.** Every model includes excavator-specific mount
- **Adaptability.** Mounts to most compact excavators or backhoes 10k to 16k lbs.
- **Composite Dampener Washer.** Isolates operational vibration and increases drive component lifespan
- **True Shaft Technology.** An electronically balanced cutter drum with serviceable hubs to ensure straight shafts that run smooth for years of reliable, vibration-free operation
- **Wire Guards.** Anti-wrap design protects bearings and seals from debris
- **Triple Flail Knives.** Reversible triple knife 2.25-pound slide slicer knives plus a 2-pound straight knife provide 7 pounds of knives in each station adding power and extra cutting surface
- **Bolt-on Chain Guards.** Easily replaceable if damaged
- **Direct Drive Design.** Maximizes power transfer to cutter drum
- **SAE Compliant.** Exceeds all SAE J1001 standards for flail mowers
- **Single-Piece Frame.** Modern engineering increases strength by 25%
